Preventive Care Basics for Children and Those Who Are or Who May Become Pregnant

Take charge of your health with preventive care benefits available through your primary care provider (PCP) usually at no cost-share.*

Preventive Services

Most health plans include coverage for certain preventive services when visiting an in-network provider. Preventive care benefits vary with age and personal health history. Use the charts below to start a discussion with your doctor about which preventive services and screenings are right for you.*

General Preventive Care for Children**

Find an in-network pediatrician before baby's birth

Even when your child isn't sick, it's important for them to see their doctor for regular checkups.

Children may receive age-appropriate preventive exams and counseling, including:

- Well-child exams and vaccinations as shown on the next page
- Newborn hearing, jaundice, PKU, metabolic, and select other screenings (up to 62 days of age)
- Skin cancer counseling (ages 6 months-24 years for those with fair skin type)
- Dental cavities (up to age 6, starting with first tooth)
- Scoliosis, adolescent idiopathic
- Hepatitis B/C, HIV, and Cholesterol screening (if at risk)
- Eye exam (ages 3-5)
- Obesity (starting at age 6)
- Anemia and lead poisoning screenings
- Anxiety, depression, abuse, suicide risk screenings
- Alcohol and drug misuse
- Sexually transmitted disease screenings

Preventive Medications:

- Inhaled corticosteroids if diagnosed with asthma
- Insulin and other glucose lowering agents, A1c testing and glucometer

General Preventive Care for Those Who Are or Who May Become Pregnant**

Find an in-network primary care provider (PCP) and obstetrician/gynecologist (OB/GYN) before pregnancy

Screenings and counseling for:

- Gestational diabetes and anemia
- Hepatitis B and HIV
- Preeclampsia prevention
- Rh incompatibility
- Bacterial vaginosis
- Expanded tobacco use
- Healthy pregnancy weight
- Neural tube defects, ultrasound, and home uterine monitoring (if high risk)
- Breastfeeding support and counseling
- Maternal depression screenings for mothers at well-baby visits

Preventive Medications:

- Birth control
- Folic acid supplements

Procedures:

- Tubal Ligation

calling the number on the back of your Member ID card, MyRGA.com or 1-800-453-6747 for more information on your preventive care benefits.

*Consult with your doctor to determine what preventive care is right for you based on your medical history. Not all services listed may qualify as a part of your preventive care benefits. Services performed to diagnose or treat symptoms or provide routine care for chronic conditions may be subject to separate charges. Always ask your doctor about the type of services being rendered at your visit. <http://health.gov/myhealthfinder> is also a great resource.
