Family Protection That Reaches Further

Every time you use an app, click a link, or shop online, you leave behind a digital footprint.

These daily breadcrumbs of information mean your personal data is constantly exposed and potentially used in ways you often can't see.

Criminals aren't just looking for credit cards; they are using professional fraud-as-a-service tools and AI-driven deepfakes to help target your family's entire digital existence.[1]

Get Award-Winning Identity Theft Protection for Your Paycheck, Your Family, & Your Future.

Family is the New Frontier for Fraud

Unprotected children are often the gateways for socially engineered attacks that could compromise the identities of everyone in the home.[2]

Whether fraudsters target your child's Social Security number or your spouse's retirement account, the toll on your family can be severe. It goes far beyond stolen funds. 74% of victims report significant stress, and 51% are left unable to pay their bills in the aftermath of an attack.[3]

Identity theft protection isn't just an optional perk; it's a proactive defense for your family's financial footprint. See how our Family Plan[4] provides the industry's most complete "out-of-the-box" protection for you and your loved ones.[5]

Our US-based, customer care team is here for you 24/7/365 at 866.513.1518.
